

Foam

Anti Corrosion Foam Emitter

Foam VCI 2000 closed cells provides both excellent corrosion protection of metals within a package or enclosed space. VCI 2000 Foam is manufactured using a unique extrusion process in which a concentrated level of volatile corrosion inhibitor (VCI) is infused into the foam, allowing maximum volatilization while maintaining the physical characteristics of the foam.

- **Dry protection – No need to apply or remove protective Liquids**
- **Corrosion Protection**
- **Does Not Effect on the Metal Surface Properties**
- **Not contain Powder**
- **Safe and Friendly - Recyclable as Polimer in according with 94/62 & 129/97 CE Regulations**

PRODUCT PROPERTIES

POLIMERIC FOAM + VCI

SIZE mm 255 x 255 x 5

PROTECTION ≤ 0,20 m³ (200 liters)

RECYCLABILITY 94/62 & 129/97 CE Regulation

STORAGE < 122°F - (50°C)
24 months into original package

For effective protection from corrosion is strongly recommended its use in indoor storage environments or with external containers such as boxes, cartons or wooden crates

AVAILABILITY

- Size: mm 225 x 225
- Packaging: 140 pcs/box
